

Felipe Marques Esteves Lamarca

M.A. student in Political Science, IESP-UERJ · Data Scientist, AtlasIntel

felipe.lamarca@hotmail.com · felipelamarca.com · Rio de Janeiro, Brazil

github.com/felipelm · linkedin.com/in/felipe-lamarca · ORCID 0000-0003-0002-3627 · Google Scholar · Lattes

Research interests. Legislative behavior; political behavior; public policy; text-as-data; causal inference; survey methods.

01

Education

Mar 2025 –
Present

Institute of Social and Political Studies, IESP-UERJ

M.A., Political Science

Dissertation: *Preference estimation in the Brazilian Congress*

Advisor: Fernando Meireles, Ph.D.

Feb 2021 –
Dec 2024

School of Applied Mathematics, Getulio Vargas Foundation

B.Sc., Data Science and Artificial Intelligence

Advisor: Luiz Max Carvalho, Ph.D.

Feb 2019 –
Dec 2024

School of Social Sciences, Getulio Vargas Foundation

B.A., Social Sciences

Advisor: Jaqueline Porto Zulini, Ph.D.

Summer schools and training. Summer Institute in Computational Social Science (SICSS), Rio de Janeiro, 2024; ML4Good bootcamp, 2024; academic writing and publication of quantitative papers in the social sciences, IESP-UERJ, 2025; Effective Altruism Global, San Francisco, 2026 (full funding).

02

Publications

PEER-REVIEWED ARTICLES

- **Lamarca, Felipe M. E.** 2021. “As relações Executivo-Legislativo na Primeira República: uma análise das mensagens presidenciais ao Congresso (1910–1920).” *Mosaico* 13(20): 525–546. DOI · ACCESS LINK

WORKING PAPERS

- **Lamarca, Felipe M. E.**, and Tomás Paixão Borges. “Quanto votos meu partido vai fazer? Um tutorial de validação preditiva com dados abertos (2016–2024).” 2026.
- **Lamarca, Felipe M. E.**, and Lucas Calabró Berti. “Da gaveta ao plenário: os caminhos da aprovação de pautas na Câmara dos Deputados.” 2026.

DISCUSSION PAPERS

- **Lamarca, Felipe M. E.** “Como a população do estado do Rio de Janeiro se informa sobre política? Uma análise de survey.” Textos para Discussão do DOXA (IESP-UERJ), 2026. PDF · REPLICATION PACKAGE

TECHNICAL NOTES

- Santos, Fabiano, Carlos Freitas, and **Felipe M. E. Lamarca**. “Nota Técnica NECON sobre as próximas eleições presidenciais.” NECON (IESP-UERJ), 2026.

03

Fellowships, Grants, and Awards

FELLOWSHIPS AND GRANTS

2026–2027

FAPERJ Nota 10 graduate fellowship, Fundação Carlos Chagas Filho de Amparo à Pesquisa do Estado do Rio de Janeiro, awarded for first-year performance in the M.A. at IESP-UERJ.

2026

Pensando o Direito research grant, Ministry of Justice and Public Security (MJSP).

2025–2026

CAPES master’s fellowship, Coordenação de Aperfeiçoamento de Pessoal de Nível Superior.

2021–2022

CNPq undergraduate research fellowship.

2019–2024

FGV merit scholarship (90%) for undergraduate study, awarded for performance in the entrance examination.

2019–2021

FGV undergraduate research fellowship.

AWARDS AND DISTINCTIONS

2026	2nd Runner Up, Best DH Tool or Suite of Tools, DH Awards 2025, for Relicária.
2025	Professor Carlos Eduardo Sarmiento Academic Distinction Award, School of Social Sciences (FGV CPDOC), for the highest academic performance in the Class of 2025.
2024	1st place admission to the M.A. programme in Political Science at IESP-UERJ.
2020	Best Paper Award, History and Social Sciences Students' Week (FGV CPDOC).

04 Software

- **mapa-da-ciencia** (2026). A literature observatory built on local language models: topics over time, codebook-based classification of abstracts with blind validation, and the geography of research production. [SOURCE CODE](#) · [ACCESS LINK](#) · [DOI](#)
- **mape_municipios_dashboard** (2025). With Fernando Meireles. A dashboard over one of the most comprehensive databases on Brazilian municipalities, built for MAPE. [SOURCE CODE](#) · [ACCESS LINK](#)
- **LGBTQIA+ indicators in Rio de Janeiro** (2026). With Tomás Paixão Borges. A dashboard on the mape_municipios infrastructure for the office of state deputy Dani Balbi, bringing together MUNIC, PNS, and Censo SUAS data on the LGBTQIA+ population of the state, including the territorial distribution of social assistance facilities.
- **Quarto-Model-IESP** (2026). With Matheus Cavalcanti Pestana. A Quarto template for IESP-UERJ dissertations and theses. [SOURCE CODE](#) · [DOI](#)
- **Relicária** (2025). With Danielle Sanches de Almeida. A platform that combines AI and data analysis to extract and visualize information from historical documents. [SOURCE CODE](#) · [ACCESS LINK](#) · [DOI](#)

05 Conference Presentations

Sep 2026	50th ANPOCS Annual Meeting, SPG 31 – Methodology and Research Methods in the Social Sciences. <i>Quantos votos meu partido vai fazer? Um tutorial de validação preditiva com dados abertos (2016–2024)</i> .
Aug 2026	XV Meeting of the Brazilian Political Science Association (ABCP), Belém. <i>Da gaveta ao plenário: os caminhos da aprovação de pautas na Câmara dos Deputados</i> .
Nov 2025	10th Student Week of the Postgraduate Programs of IESP-UERJ. <i>Quantos votos meu partido vai fazer? Prevendo o vote share nos municípios fluminenses</i> . FILES
Aug 2025	24th Congress of the Global Basic Income Network (BIEN). <i>Fatores explicativos do apoio ou rejeição à criação de uma política municipal de renda básica: modelando a percepção dos cariocas</i> . PDF

06 Research Experience

LABORATORIES, IESP-UERJ

Jan 2026 – Present	NECON, IESP-UERJ <i>Researcher</i> Center for Studies on Congress, coordinated by Fabiano Santos. I work on the lab's databases on roll-call votes and legislative production. <i>Selected delivery</i> . A technical note applying spatial models of voting to the 2026 presidential race.
May 2025 – Present	DOXA, IESP-UERJ <i>Researcher</i> Laboratory of Electoral Studies, Political Communication and Public Opinion, coordinated by Fernando Meireles and Argelina Cheibub Figueiredo. I work on the design and analysis of the lab's public opinion surveys, including weighting and post-stratification. <i>Selected delivery</i> . Analysis of the DOXA survey on how the population of the state of Rio de Janeiro learns about politics, now a DOXA discussion paper.
Apr 2025 – Present	MAPE, IESP-UERJ <i>Researcher</i> Laboratory for Monitoring and Evaluation of Policies and Elections, coordinated by Fernando Meireles and Bruno Schaefer. I build and maintain the mape_municipios database and its public interface, and teach in the lab's methodological training. <i>Selected delivery</i> . A Streamlit application that lets users interact with mape_municipios, a database covering 30 years and 451 variables on Brazilian municipalities.

FUNDED PROJECTS

Jul 2026 –
Present

***Pensando o Direito* research grant, MJSP**

Researcher

Systematic review of the evidence on a set of public security policies for the Legal Amazon, organized around the idea of a qualified entry of the State into vulnerable territories, following the OQF (*O Que Funciona?*) protocol developed at MAPE. I run the search protocol, screening, and evidence extraction. Project coordinated by Djane Braz Duarte.

Expected deliveries. (i) an analytical report for the Ministry; (ii) an article submitted to a peer-reviewed journal; (iii) entries on the reviewed policies in the *Dicionário de Favelas* Marielle Franco.

Aug 2025 –
Present

RESA project, UFAC and IESP-UERJ

Researcher

Socioeconomic and environmental impacts of family-based agroextractive production in the Chico Mendes Extractive Reserve, in Acre, with an emphasis on what cooperatives change in land use and in household income. I handle the quantitative data and build the project's public monitoring platform. Coordinated by Luci Maria Teston (UFAC), with IESP-UERJ as a partner institution.

Selected delivery. A preliminary version of the monitoring platform, covering deforestation in Acre.

EARLIER POSITIONS

Feb 2025 –
Apr 2025

School of Public and Business Administration, FGV EBAPE

Research Assistant

Digitized and systematized historical election results using OCR and LLMs, under the supervision of Prof. Cesar Zucco, Ph.D.

Selected deliveries. Databases extracted from historical images, source code, and a technical report.

Oct 2024 –
Feb 2025

CEBRAP

Consultant, Center for Critical Imagination

Applied OCR and LLMs to the Brazilian Statistical Yearbooks, published as manuscripts, to systematize social assistance data since the early 20th century. In collaboration with José Szwako, Ph.D.

Selected deliveries. Databases extracted from PDFs, source code, and a technical report.

Jun 2019 –
Sep 2022

School of Social Sciences, FGV CPDOC

Junior Research Fellow

Supported by an FGV/CNPq fellowship, examined Executive-Legislative relations in the early 20th century using qualitative and quantitative methods. Supervised by Prof. Jaqueline Porto Zulini, Ph.D.

Selected deliveries. Three technical reports and one peer-reviewed article.

07

Teaching Experience

COURSES TAUGHT

Aug 2026

AI agents for social science research. Short course at the methodological training of MAPE (graduate): an introduction to Claude Code. [FILES](#)

Jun 2026

Introduction to AI agents in academic research. Short course at LABIIA on the use of AI agents in academic research. [FILES](#)

May 2026

AI agents for social science research. Short course at CERES, IESP-UERJ: an introduction to Claude Code. [FILES](#)

2025.2

Machine Learning. Methodological training of MAPE (graduate). Recognizing, training, interpreting, and evaluating simple predictive models applied to social research. [FILES](#)

2025.2

Deep Learning & Text-as-Data. 10th Student Week of the Postgraduate Programs of IESP-UERJ (graduate). What a neural network is and how to train one, and text-as-data with deep learning. [FILES](#)

2025.1

Automated Text Analysis. Crash course on modern approaches to text-as-data in social science, at the Summer Institute in Computational Social Science (SICSS) Brazil. [PDF](#)

TEACHING ASSISTANTSHIPS

2025.1

Advanced Text-as-Data. IESP-UERJ Winter School (graduate). Deep learning, embeddings, transformers, and LLMs applied to political science. Instructors: Tiago Ventura, Ph.D. and Sebastián Vallejo Vera, Ph.D. [COURSE](#) [WEBSITE](#)

2024.2

Quantitative Methods II. FGV CPDOC (undergraduate). Data exploration, inference, and regression. Instructor: Jairo Nicolau, Ph.D.

2020.2

Introduction to R. FGV CPDOC (graduate). Programming for social science applications. Instructor: Jimmy Medeiros, Ph.D.

08

Professional Experience

Jun 2025 - Present	AtlasIntel <i>Data Scientist</i> Calibrating survey samples, political analysis, monitoring public opinion, and improving internal data pipelines. <i>Selected delivery.</i> Cut the retrieval of Brazilian demographic data for sample weighting from a manual, multi-hour task to a single scripted call.
Jul 2024 - Jun 2025	Independent consulting <i>Independent Consultant in Data Science and Research</i> Data and AI work, research support, and training for clients across sectors. • Artplan: applied deep learning to social media segmentation. • Fundação Roberto Marinho: dashboards in Streamlit and Power BI, an AWS data lake, and Python/ML training. • Plataforma CIPÓ: training modules in machine learning and data analysis. • GENI/UFF: LLM and RAG tools for structured extraction from unstructured documents.
Apr 2022 - Jun 2025	Instituto Rio21 <i>Data Scientist and Researcher</i> Ran and analyzed surveys on public policy and urban security. <i>Selected deliveries.</i> (i) An automated Python pipeline that cut report production from days to about an hour; (ii) interactive and programmatic maps for corporate audiences.
Oct 2024 - Dec 2024	Strategic Planning Superintendence, FGV <i>Data Science Intern</i> Brought generative AI into decision-making pipelines and prepared presentations for FGV's executive leadership. <i>Selected delivery.</i> A RAG pipeline for querying FGV researchers' publications in natural language.
Jan 2024 - Jun 2024	Visagio <i>Part-time Data Scientist</i> Optimization models, SQL pipelines, and Power BI dashboards for the pricing and operations teams. <i>Selected deliveries.</i> (i) A sample-size calculator for A/B tests in complex non-experimental settings; (ii) dashboards for expense auditing; (iii) analytics for allocating discount campaigns.

09

Skills and Languages

Programming	R, Python, SQL, Git, LaTeX and Quarto.
Methods	Causal inference; survey sampling, weighting, and post-stratification; text-as-data and NLP; machine learning and deep learning.
Tools	Streamlit, DuckDB, Power BI, AWS, LLM APIs and RAG pipelines (OpenAI, Groq, xAI, LlamaIndex, LangChain), Docling and DocTR for OCR.
Languages	Portuguese (native); English (fluent).
