Full CV: felipelamarca.com/cv

Profile. Data scientist and social scientist. I work on public opinion and elections, public policy evaluation, and data on the Amazon, mostly in R and Python. I currently calibrate election polls in several countries at AtlasIntel, coordinate the quantitative analysis of a project on cooperatives and deforestation in Acre, and work on a systematic review of public security policies for Brazil's Ministry of Justice.

01 Experience

Jun 2025 – Present
AtlasIntel · *Data Scientist*
Calibration of election polls in several countries, design of probability-based face-to-face surveys, and the introduction of conjoint experiments.

Aug 2025 – Present
RESA project, UFAC, IESP-UERJ and IFAC · *Coordinator of Quantitative Methods and Analysis*
I coordinate the quantitative analysis of a project on what agroextractive cooperatives change in household income and deforestation in Acre, selected in an Instituto Clima e Sociedade call supported by the Bezos Earth Fund. PLATFORM · WORKING SITE

Jul 2026 – Present
***Pensando o Direito* research grant, MJSP** · *Researcher*
Systematic review of the evidence on 12 public security policies for the Legal Amazon, with a report for the Ministry of Justice and Public Security.

Apr 2025 – Present
MAPE, DOXA and NECON laboratories, IESP-UERJ · *Researcher*
I build and maintain `mape_municipios` (30 years and 451 variables on Brazilian municipalities) and its public interface, analyze the DOXA surveys, and work on NECON's roll-call databases.

Jul 2024 – Present
Independent consulting · *Consultant in Data Science and Research*
Data tools to monitor the education programs of Fundação Roberto Marinho, Python and machine learning courses for the teams of the foundation and of Plataforma CIPÓ, and data tools for research on armed violence at GENI/UFF.

Apr 2022 – Jun 2025
Instituto Rio21 · *Data Scientist and Researcher*
Ran and analyzed surveys on public policy and urban security.

02 Education

Mar 2025 – Present
Institute of Social and Political Studies, IESP-UERJ
M.A., Political Science
Dissertation: *Preference estimation in the Brazilian Congress* · Advisor: Fernando Meireles, Ph.D.

Feb 2021 – Dec 2024
School of Applied Mathematics, Getulio Vargas Foundation
B.Sc., Data Science and Artificial Intelligence

Feb 2019 – Dec 2024
School of Social Sciences, Getulio Vargas Foundation
B.A., Social Sciences

SOFTWARE

- `mapa-da-ciencia` (2026). A literature observatory built on local language models. ACCESS LINK
- **DHBB-Parentescos** (2026). The kinship network of Brazilian politics, extracted with language models from the entries of the DHBB. ACCESS LINK
- `mape_municipios_dashboard` (2025). With Fernando Meireles. A dashboard over the `mape_municipios` database, built for MAPE. ACCESS LINK
- **RelicárIA** (2025). With Danielle Sanches de Almeida. AI and data analysis to extract and visualize information from historical documents, awarded at the DH Awards 2025. ACCESS LINK

04 Recent Presentations

Sep 2026 — 50th ANPOCS Annual Meeting. *Quantos votos meu partido vai fazer? Um tutorial de validação preditiva com dados abertos (2016–2024).*

Aug 2026 — XV Meeting of the Brazilian Political Science Association (ABCP), Belém. *Da gaveta ao plenário: os caminhos da aprovação de pautas na Câmara dos Deputados*.

05 Teaching

Graduate short courses on machine learning, deep learning, text-as-data, and AI agents (MAPE, CERES, and the IESP-UERJ Student Week, SICSS Brazil 2025, and LABIIA), and a Python and machine learning course for the research team of Plataforma CIPÓ. Teaching assistant in advanced text-as-data (IESP-UERJ) and quantitative methods (FGV CPDOC).

06 Fellowships and Awards

2026-2027 — FAPERJ Nota 10 graduate fellowship, awarded for first-year performance in the M.A. at IESP-UERJ.

2026 — 2nd Runner Up, Best DH Tool or Suite of Tools, DH Awards 2025, for RelicárIA.

2025 — Professor Carlos Eduardo Sarmento Academic Distinction Award (FGV CPDOC), for the highest academic performance in the Class of 2025.

2024 — 1st place admission to the M.A. programme in Political Science at IESP-UERJ.

2019-2024 — FGV merit scholarship (90%) for undergraduate study, awarded for performance in the entrance examination.

07 Skills and Languages

Programming — R, Python, SQL, Git, LaTeX and Quarto.

Methods — Causal inference; survey sampling, weighting, and post-stratification; conjoint experiments; text-as-data and NLP; machine learning and deep learning.

Tools — Streamlit, DuckDB, Power BI, AWS, LLM APIs and RAG pipelines, Docling and DocTR for OCR.

Languages — Portuguese (native); English (fluent).
