CURRICULUM VITAE · OCTOBER 2026

Felipe Marques Esteves Lamarca

M.A. student in Political Science, IESP-UERJ · Data Scientist, AtlasIntel

felipe.lamarca@hotmail.com · felipelamarca.com · Rio de Janeiro, Brazil
github.com/felipelmc · linkedin.com/in/felipe-lamarca · ORCID 0000-0003-0002-3627 · Google Scholar · Lattes

Research interests. Legislative behavior; political behavior; public policy; text-as-data; causal inference; survey methods.

01 Education

Mar 2025 – Present

Institute of Social and Political Studies, IESP-UERJ
M.A., Political Science
Dissertation: *Preference estimation in the Brazilian Congress*
Advisor: Fernando Meireles, Ph.D.

Feb 2021 – Dec 2024

School of Applied Mathematics, Getulio Vargas Foundation
B.Sc., Data Science and Artificial Intelligence
Advisor: Luiz Max Carvalho, Ph.D.

Feb 2019 – Dec 2024

School of Social Sciences, Getulio Vargas Foundation
B.A., Social Sciences
Advisor: Jaqueline Porto Zulini, Ph.D.

Summer schools and training. Summer Institute in Computational Social Science (SICSS), Rio de Janeiro, 2024; ML4Good bootcamp, 2024; academic writing and publication of quantitative papers in the social sciences, IESP-UERJ, 2025; Effective Altruism Global, San Francisco, 2026 (full funding).

02 Research Experience

LABORATORIES, IESP-UERJ

Jan 2026 – Present

NECON, IESP-UERJ · *Researcher*

Center for Studies on Congress, coordinated by Fabiano Santos. I work on the lab's databases on roll-call votes and legislative production.

Selected delivery. A technical note applying spatial models of voting to the 2026 presidential race.

May 2025 – Present

DOXA, IESP-UERJ · *Researcher*

Laboratory of Electoral Studies, Political Communication and Public Opinion, coordinated by Fernando Meireles and Argelina Cheibub Figueiredo. I work on the design and analysis of the lab's public opinion surveys, including weighting and post-stratification.

Selected delivery. Analysis of the DOXA survey on how the population of the state of Rio de Janeiro learns about politics, now a DOXA discussion paper.

Apr 2025 – Present

MAPE, IESP-UERJ · *Researcher*

Laboratory for Monitoring and Evaluation of Policies and Elections, coordinated by Fernando Meireles and Bruno Schaefer. I build and maintain the `mape_municipios` database and its public interface, and teach in the lab's methodological training.

Selected delivery. A Streamlit application that lets users interact with `mape_municipios`, a database covering 30 years and 451 variables on Brazilian municipalities.

FUNDED PROJECTS

Jul 2026 – Present

***Pensando o Direito* research grant, MJSP** · *Researcher*

Systematic review of the evidence on public security policies for the Legal Amazon, organized around the idea of a qualified entry of the State into vulnerable territories and following the OQF (*O Que Funciona?*) protocol developed at MAPE. It covers 12 policies in four areas (from community policing and body-worn cameras to the Patrulha Maria da Penha and the Plano Juventude Viva) and more than 300 studies. I run the search, screening, and evidence extraction, with LLM-assisted screening and extraction checked by the team. Project coordinated by Djane Braz Duarte.

Expected deliveries. (i) an analytical report for the Ministry; (ii) an article submitted to a peer-reviewed journal; (iii) entries on the reviewed policies in the Dicionário de Favelas Marielle Franco.

Aug 2025 – Present

RESA project, UFAC, IESP-UERJ and IFAC · *Coordinator of Quantitative Methods and Analysis*

Socioeconomic and environmental impacts of family-based agroextractive production in extractive reserves and rural settlements in Acre, focusing on what cooperatives change in household income and deforestation. The project was one of six selected, out of 221 proposals, in the Instituto Clima e Sociedade (iCS) call for research on sustainable economies in the Amazon, supported by the Bezos Earth Fund. I coordinate the quantitative work (primary and secondary data, indicators, the monitoring platform, and training fellows in methods). Overall coordination by Luci Maria Teston (UFAC).

Selected deliveries. (i) A monitoring platform for deforestation in Acre and the Chico Mendes Extractive Reserve; (ii) a technical report on deforestation pressure inside and around the reserve; (iii) a working site with data for the whole Legal Amazon, linking deforestation, cooperatives, rural credit, and social indicators.

EARLIER POSITIONS

Feb 2025 – Apr 2025

School of Public and Business Administration, FGV EBAPE · *Research Assistant*

Digitized and systematized historical election results using OCR and LLMs, delivering databases, source code, and a technical report. Supervised by Prof. Cesar Zucco, Ph.D.

Oct 2024 – Feb 2025

CEBRAP · *Consultant, Center for Critical Imagination*

Applied OCR and LLMs to the Brazilian Statistical Yearbooks, published as manuscripts, to systematize social assistance data since the early 20th century, delivering databases, source code, and a technical report. In collaboration with José Szwako, Ph.D.

Jun 2019 – Sep 2022

School of Social Sciences, FGV CPDOC · *Junior Research Fellow*

Supported by an FGV/CNPq fellowship, examined Executive-Legislative relations in the early 20th century using qualitative and quantitative methods, in three technical reports and one peer-reviewed article. Supervised by Prof. Jaqueline Porto Zulini, Ph.D.

03 Professional Experience

Jun 2025 – Present

AtlasIntel · *Data Scientist*

Sample calibration for AtlasIntel's national and subnational election polls across most of Latin America, the United States (including the midterms), Europe, Israel and Mozambique. In Brazil, I worked on the calibration of polls in every state during the 2026 cycle. I design the company's probability-based face-to-face household surveys (multistage samples with PPS and Kish respondent selection). I introduced conjoint experiments into the company's surveys.

Jul 2024 – Present

Independent consulting · *Independent Consultant in Data Science and Research*

Data, research, and methods training for civil society organizations, universities, and companies.

- Fundação Roberto Marinho: data tools to monitor the foundation's education programs (Telecurso, co.liga, Canal Futura, Escola FRM, and Aprendiz Legal), such as tracking student learning and teacher training in Telecurso's program with the Salvador municipal school system, and Python and machine learning training for the team.
- Plataforma CIPÓ: a machine learning course for the research team.
- GENI/UFF: databases, statistical models, and data tools for research on armed violence and territorial control in the state of Rio de Janeiro.
- Artplan: applied deep learning to social media segmentation.

Apr 2022 – Jun 2025

Instituto Rio21 · *Data Scientist and Researcher*

Ran and analyzed surveys on public policy and urban security, with an automated Python pipeline that cut report production from days to about an hour.

Oct 2024 – Dec 2024

Strategic Planning Superintendence, FGV · *Data Science Intern*

A RAG pipeline for querying FGV researchers' publications in natural language.

Jan 2024 – Jun 2024

Visagio · *Part-time Data Scientist*

Optimization models, SQL pipelines, and Power BI dashboards for pricing and operations, plus a sample-size calculator for A/B tests.

04 Teaching Experience

COURSES TAUGHT

Aug 2026 **AI agents for social science research.** Short course at the methodological training of MAPE (graduate): an introduction to Claude Code. FILES

Jun 2026 **Introduction to AI agents in academic research.** Short course at LABIIA on the use of AI agents in academic research. FILES

May 2026 **AI agents for social science research.** Short course at CERES, IESP-UERJ: an introduction to Claude Code. FILES

2025.2 **Machine Learning.** Methodological training of MAPE (graduate). Recognizing, training, interpreting, and evaluating simple predictive models applied to social research. FILES

2025.2 **Deep Learning & Text-as-Data.** 10th Student Week of the Postgraduate Programs of IESP-UERJ (graduate). What a neural network is and how to train one, and text-as-data with deep learning. FILES

2025.1 **Automated Text Analysis.** Crash course on modern approaches to text-as-data in social science, at the Summer Institute in Computational Social Science (SICSS) Brazil. PDF

Dec 2024 **Python, data analysis, and machine learning for research.** A four-module course for the research team of Plataforma CIPÓ, an institute working on climate and international governance. With Matheus Cavalcanti Pestana.

TEACHING ASSISTANTSHIPS

2025.1 **Advanced Text-as-Data.** IESP-UERJ Winter School (graduate). Deep learning, embeddings, transformers, and LLMs applied to political science. Instructors: Tiago Ventura, Ph.D. and Sebastián Vallejo Vera, Ph.D. COURSE WEBSITE

2024.2 **Quantitative Methods II.** FGV CPDOC (undergraduate). Data exploration, inference, and regression. Instructor: Jairo Nicolau, Ph.D.

2020.2 **Introduction to R.** FGV CPDOC (graduate). Programming for social science applications. Instructor: Jimmy Medeiros, Ph.D.

05 Publications

PEER-REVIEWED ARTICLES

- **Lamarca, Felipe M. E.** 2021. "As relações Executivo-Legislativo na Primeira República: uma análise das mensagens presidenciais ao Congresso (1910–1920)." *Mosaico* 13(20): 525–546. DOI · ACCESS LINK

WORKING PAPERS

- **Lamarca, Felipe M. E.**, and Tomás Paixão Borges. "Quantos votos meu partido vai fazer? Um tutorial de validação preditiva com dados abertos (2016–2024)." 2026.
- **Lamarca, Felipe M. E.**, and Lucas Calabró Berti. "Da gaveta ao plenário: os caminhos da aprovação de pautas na Câmara dos Deputados." 2026.

DISCUSSION PAPERS

- **Lamarca, Felipe M. E.** "Como a população do estado do Rio de Janeiro se informa sobre política? Uma análise de survey." Textos para Discussão do DOXA (IESP-UERJ), 2026. PDF · REPLICATION PACKAGE

TECHNICAL NOTES

- Santos, Fabiano, Carlos Freitas, and **Felipe M. E. Lamarca**. "Nota Técnica NECON sobre as próximas eleições presidenciais." NECON (IESP-UERJ), 2026.

06 Fellowships, Grants, and Awards

FELLOWSHIPS AND GRANTS

2026-2027 FAPERJ Nota 10 graduate fellowship, Fundação Carlos Chagas Filho de Amparo à Pesquisa do Estado do Rio de Janeiro, awarded for first-year performance in the M.A. at IESP-UERJ.

2026 *Pensando o Direito* research grant, Ministry of Justice and Public Security (MJSP).

2025-2026 CAPES master's fellowship, Coordenação de Aperfeiçoamento de Pessoal de Nível Superior.

2021-2022 CNPq undergraduate research fellowship.

2019-2024 FGV merit scholarship (90%) for undergraduate study, awarded for performance in the entrance examination.

2019-2021 FGV undergraduate research fellowship.

AWARDS AND DISTINCTIONS

2026 2nd Runner Up, Best DH Tool or Suite of Tools, DH Awards 2025, for RelicárIA.

2025 Professor Carlos Eduardo Sarmento Academic Distinction Award, School of Social Sciences (FGV CPDOC), for the highest academic performance in the Class of 2025.

2024 1st place admission to the M.A. programme in Political Science at IESP-UERJ.

2020 Best Paper Award, History and Social Sciences Students' Week (FGV CPDOC).

07 Software

- `mapa-da-ciencia` (2026). A literature observatory built on local language models: topics over time, codebook-based classification of abstracts with blind validation, and the geography of research production. SOURCE CODE · ACCESS LINK · DOI
- **DHBB-Parentescos** (2026). The kinship network of Brazilian politics, extracted with language models from the entries of the Dicionário Histórico-Biográfico Brasileiro: 22,568 ties, each citing the passage it came from. ACCESS LINK · PAPER
- `mape_municipios_dashboard` (2025). With Fernando Meireles. A dashboard over one of the most comprehensive databases on Brazilian municipalities, built for MAPE. SOURCE CODE · ACCESS LINK
- **LGBTQIA+ indicators in Rio de Janeiro** (2026). With Tomás Paixão Borges. A dashboard on the `mape_municipios` infrastructure for the office of state deputy Dani Balbi, bringing together MUNIC, PNS, and Censo SUAS data on the LGBTQIA+ population of the state, including the territorial distribution of social assistance facilities.
- `Quarto-Model-IESP` (2026). With Matheus Cavalcanti Pestana. A Quarto template for IESP-UERJ dissertations and theses. SOURCE CODE · DOI
- **RelicárIA** (2025). With Danielle Sanches de Almeida. A platform that combines AI and data analysis to extract and visualize information from historical documents. SOURCE CODE · ACCESS LINK · DOI

08 Conference Presentations

Sep 2026 50th ANPOCS Annual Meeting, SPG 31 – Methodology and Research Methods in the Social Sciences. *Quantos votos meu partido vai fazer? Um tutorial de validação preditiva com dados abertos (2016–2024).*

Aug 2026 XV Meeting of the Brazilian Political Science Association (ABCP), Belém. *Da gaveta ao plenário: os caminhos da aprovação de pautas na Câmara dos Deputados.*

Nov 2025 10th Student Week of the Postgraduate Programs of IESP-UERJ. *Quantos votos meu partido vai fazer? Prevendo o vote share nos municípios fluminenses.* FILES

Aug 2025 24th Congress of the Global Basic Income Network (BIEN). *Fatores explicativos do apoio ou rejeição à criação de uma política municipal de renda básica: modelando a percepção dos cariocas.* PDF

09 Skills and Languages

Programming R, Python, SQL, Git, LaTeX and Quarto.

Methods Causal inference; survey sampling, weighting, and post-stratification; text-as-data and NLP; machine learning and deep learning.

Tools Streamlit, DuckDB, Power BI, AWS, LLM APIs and RAG pipelines (OpenAI, Groq, xAI, LlamaIndex, LangChain), Docling and DocTR for OCR.

Languages Portuguese (native); English (fluent).
